Supervisor of Elections To Launch Improved Website

Pasco County FL – Supervisor Brian Corley announces the release of a newly upgraded official website for the Pasco County Supervisor of Elections’ Office, www.pascovotes.com, on March 1, 2018. The new website is a responsive website which automatically scales to the user’s device making it even faster and more convenient for voters who want to quickly check their registration status, request a vote-by-mail ballot, or check wait times at early voting sites.

“Getting information about voting and your voter registration should be easy,” said Brian E. Corley. “As a public service office, it’s important that we stay responsive to the ever growing dependency on technology in our society.”

Pascovotes.com is an informational tool for citizens and candidates of Pasco County, and is in addition to our Twitter account @votepasco, our Facebook page @PascoElections, our Instagram account pascocountysoe, and our YouTube channel PascoElections.
