

**PASCO COUNTY UTILITIES  
WATER SYSTEM  
DRY LINE APPROVAL  
LETTER OF UNDERSTANDING**

Name of Project:

Pasco County Project Number:

I have requested a "dry line" Water Distribution System Permit, DEP Form 62-555.900(1), for my development because the proposed system will connect to utilities facilities not yet constructed and/or cleared by Pasco County or the Florida Department of Environmental Protection (FDEP) for use, or will be connected to a proposed water treatment plant for which a valid operating permit has not been issued. The "dry line" permit would allow the physical installation of the water distribution system prior to having an approved connection to the existing utility system or an adequate source of potable water to provide drinking water and fire protection to the project.

I understand that the issuance of the "dry line" Water Distribution Construction Permit confers absolutely no right to any service connections now or in the future. I am requesting this "dry line" permit only for my own financial and logistic convenience and am willing to take the risk that the service connections may never be allowed. I acknowledge that I may be giving up legal rights by accepting this "dry line" permit, and that Pasco County and/or FDEP in no way recommend this course of action and have suggested that I seek consultation about its advisability and consequences.

With all the foregoing, I still wish to go ahead with the construction as set forth in my "dry line" permit application and conditions of approval.
