Live Board meetings and Pasco TV now available to view on MyPasco App *~MyPasco app can be downloaded for smartphone and tablet users~*

PASCO COUNTY --- Pasco County Government's new mobile application (APP) for smart phone and tablet users, MyPasco app, now has new a feature that allows anyone to watch Pasco Television live.

Prior to the MyPasco app, you had to watch Pasco Television only on cable or through the computer. Now, the MyPasco app allows citizens to watch from the ease of their smartphone. As long as users have a high speed internet connection they now have access not only in Pasco County but anywhere they have an internet connection.

"When we have a live Board meeting, you can now watch that live by downloading the MyPasco app," said Doug Tobin, Public Information Officer for Pasco County Government. "This should make it easier for users who want to watch board meetings but may be away from a computer. As long as you have a high speed wifi connection, you will now be able to watch the meetings on your personal handheld device."

More than 3,200 people have downloaded the MyPasco app since it was released in June, 2015.

"I hope once people realize how easy it is to watch a County Board meeting the number of people using MyPasco App will increase," said Tobin. "This also gives the County a tremendous opportunity to reach more citizens in time of emergencies. This will allow us to take our message directly to citizens should we activate during a hurricane, flood or other disaster."

The new app is designed for Android, Apple, and Blackberry mobile products. Go to Google Play and Apple Stores and search for keyword MyPasco. For more information on downloading the MyPasco app go to this link:
