Pasco County Construction Services to close May 2-3, 2016

~~No County Permits will be issued until Wednesday, May 4, 2016~~

PASCO COUNTY, FL ---- Pasco County's Building Construction Services will be closed Monday, May 2nd and Tuesday, May 3rd for staff training. No building permits and building inspections will take place during this time.

Online access for inspection requests and inspection results will also not be available until Wednesday, May 4, 2016.

All Building and Permitting Offices in the County: New Port Richey, Dade City and Land O'Lakes will be closed and will reopen on Wednesday, May 4, 2016.

Accela permitting software system was launched in April, 2016 and staff will be transitioning and training to the new system.

The new Accela program, which puts all construction and permitting information in one place, will make it faster and easier for customers to request services and monitor the progress of their projects. The program will also allow our building inspectors to immediately accept additional service requests in the field. Our professional customers will have to create a free online account to access to the new system. Just click on this link: <https://aca3.accela.com/PASCO>
