Pasco Relaxes Commercial Vehicle/RV/Boat Residential Parking

~~Vehicles can provide additional social distancing options during health emergency~~

PASCO COUNTY, FL ---- In an effort to provide additional social distancing and work-from-homes options during Florida’s [stay-at-home order](#), which is in effect through **April 30, 2020**, Pasco County Code Enforcement **will not be enforcing** or issuing citations for commercial vehicles, recreational vehicles (RV’s), or boats parked in residential areas.

Healthcare personnel, first responders and essential employees working to serve our communities during the coronavirus pandemic are facing challenging circumstances in practicing social distancing and avoiding the potential spread of COVID-19 in their own homes.

Whether it’s used as a space for family members to wash and disinfect, work remotely, or even rest – commercial vehicles and RV’s can provide much-needed options during this time.

Pasco County is sensitive to the hardships COVID-19 is presenting for families and employees and is respectfully requesting that all local Homeowner Associations (HOA’s) consider relaxing residential parking rules in their communities, as well.

We appreciate your cooperation and flexibility during this time.
