Florida Department of Health Updates New COVID-19 Cases, Announces Twenty-Five Deaths Related to COVID-19, Morning Update
~20,394 positive cases in Florida residents and 625 positive cases in non-Florida residents~

TALLAHASSEE — To keep Florida residents and visitors safe, informed and aware about the status of the virus, the Florida Department of Health has launched a COVID-19 dashboard that will be updated twice daily. We also encourage all Floridians to take the COVID-19 Community Action Survey by visiting www.StrongerThanC19.com.

Today, as of 11 a.m., there are 21,367 total** Florida cases.

While Florida's testing has increased over the past week, the percent of those testing positive for COVID-19 overall is 10 percent. Of the 9,953 tests performed on April 13, there were 1,271 positive results, or 13 percent.

Twenty-five people have died who tested positive for COVID-19 in Bay, Broward, Dade, Hillsborough, Manatee, Palm Beach, Pinellas, Polk and Suwannee counties.

New Florida cases include:

- 348 additional positive COVID-19 cases (343 Florida residents and 5 non-Florida residents) reported to the Florida Department of Health.
- There are currently 20,737 positive cases in Florida residents and 630 positive cases in non-Florida residents.

Florida recently partnered with private laboratories around the state to expand COVID-19 laboratory testing capacity. This partnership will increase the number of tests conducted each day and ensure Floridians receive the critical health information they need in a timely manner.

Expansion to private laboratories changes the COVID-19 testing landscape in Florida. Private laboratories are running tests as they receive swab samples from practitioners. Testing and reporting times vary among commercial and DOH laboratories. Demographic information may be updated during investigations. These twice daily reports reflect the state's efforts to accurately and transparently share information.

More information on a case-by-case basis can also be found [here](#).

Confirmed Cases in Florida Residents	20,737
Confirmed by DOH	2,373
Tested by private labs	18,364
