## **Pasco County Amends Solid Waste Collection/Storage Rules**

*~~Use any container/bags for trash pickup; use container with lid for trash storage~~*

**PASCO COUNTY, FL** ---- In an effort to keep our communities clean, safe and free of blight, Pasco County is changing some solid waste collection and storage rules. \*The new ordinance amendment requires any garbage **stored outside your home for more than a day** to be placed in a container with a lid. This change is in response to frequent customer complaints about trash being piled outside homes for extended periods.

\*Please note, trash **can still be set out** at the curb in **containers without a lid or in bags** within 24 hours of your hauler’s scheduled pickup. You do not need to buy new containers for regular trash service.

Other important changes include:

- **Beginning July 24, 2020, trash containers with lids will need to be used to store any garbage that sits outside your home for longer than 24 hours**
- **Waste haulers will have new customer service and truck maintenance requirements**
- **Licensed haulers must provide recycling services to businesses, upon request**

As a reminder, weekly curbside recycling is available for all customers who have trash service with a licensed hauler.
