

August 3, 2020

To our customers in Crystal Springs:

This is to notify you that Pasco County Utilities (PCU) Department will be turning the water off for Water Distribution system improvements on **Wednesday, August 26, 2020, at 8 a.m.** and will be turning the water back on at 4 p.m.

Please note this work will not be performed if there is any inclement weather or unforeseen circumstances.

Some caution should be exercised while water is turned off such as turning off your hot water heater to eliminate potential heating element damage and storing water for drinking and hygiene.

We appreciate your cooperation and wish to assure you that the renovation will be completed in the shortest time possible to cause you the least amount of inconvenience.

****PRECAUTION BOIL WATER NOTICE****

As a precautionary measure, once water is turned back on, we advise that all water used for drinking or cooking be boiled. A rolling boil for 1 minute is sufficient. In addition, ice cubes made during the time that water is being boiled should be discarded.

PCU will rescind the notice after receiving satisfactory bacteriological survey results, which will take several days. You will then be notified by posting or hand delivery.

For additional information, please contact PCU at **(727) 847-814**.
