

Did You Know?

- **There are many different types of licenses.** There is a State Certified Contractor license for all Building, Structural, Mechanical, Plumbing and Electrical work you can obtain through the State. View the [Department of Business & Professional Regulation](#). Once you obtain this license, you must register it with our Contractor Licensing division in order to work and obtain permits in Pasco County. Visit [Accela New Residential](#).
- **If you're interested in obtaining handyman work**, property maintenance, cabinetry, tree licenses, etc. please visit the [Business Tax Office](#) to inquire. View the [Property Maintenance PDF](#) to see if any of these categories pertain to you.
- **Keep in mind** most structural work requires a State license or a local County license that may be obtained by a Certificate of Competency card.
- **The trades below require** a local competency card through our Pasco County Contractor License office. These trades **cannot** be obtained in the Business Tax Office. If you're needing one of these types of licenses below, you will need to fill out an application online or request a packet to be emailed at contractorlicensing@pascocountyfl.net.
